## PREFATORY NOTE

---

THIS, the eighth, volume of THE ENGLISH CATALOGUE OF BOOKS comprises the titles of works published during the five years 1906-1910. Over 50,000 books are recorded as having been published during this period; and as they are entered under authors' names and under subjects or titles, this volume contains about 110,000 references.

The main entry of each book, giving the full information regarding publisher, price, size, etc., begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with its most important word (which usually indicates the *subject* dealt with by each book), or with the first word. The name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Since 1908, in order to facilitate reference, the fore-names of authors have been given in full in the main entries. This results in an occasional want of uniformity in the authors' names in this volume, but not sufficient to lessen in any way the ease of reference. Writers with compound names are entered under the last part of the name [*e.g.*—Gould (Sabine Baring-)], and accordingly must be looked for in that order.

Strict alphabetical order is maintained; but it may be noted that, where they are the same in spelling, names of persons precede names of places or things: *e.g.*, "Home (Gordon)," precedes "Home and Garden."

The publications of Learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of the United Kingdom will be found at the end of the volume, followed by those of the principal publishers of the United States and Canada. The telegraphic and cable addresses and telephone numbers have been added when known.

Hearty thanks are due to many publishers, librarians, secretaries, authors and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars (author, title, price, publisher, and date of publication) of any book which may have been omitted or wrongly entered. The information should be addressed to *The Editor of THE ENGLISH CATALOGUE OF BOOKS, Publishers' Circular Office, 19, Adam Street, Strand, London, W.C.*, and the particulars regarding each book should be given on a *separate* slip of paper or postcard.
